

Common Hair Loss Classifications

Norwood Hamilton classification for male pattern baldness

To get good density of hairs one must transplant 35-40 grafts per sq.cms. It can be done only when you have donor area with adequate

Hair density

Good photographs showing donor & recipient area clearly is very important for assessment.

Follicular Unit Graft cost Rs.40/-

Following table shows total cost as per hairloss classification. Correct assessment is possible only after

Consultation.

This included operative, drugs & material, operation theatre, dressings & follow up visits.

Routine investigations before surgery at any laboratory =Rs.900-1200.

Post operative oral medicines =Rs.1000

Booking is done by paying Rs.10,000 in advance. & presenting investigations report

Payments are accepted in cash/credit cards or bank transfer only.
